

FOR ACCOUNTANCY & FINANCIAL TEAMS

AI tools that give your accountants their week back.

We design and build practical AI systems for the manual work software never quite solved — document processing, workflow automation, and internal tools for finance teams.

80%

LESS TIME ON BANK STATEMENTS

10×

FASTER CLIENT ONBOARDING

FROM IDEA TO WORKING TOOL

WHAT WE BUILD

Six practices. One outcome: hours back.

01

Statement Processing

Messy PDFs, scans and CSVs into clean, audit-ready data.

02

Document Intelligence

Extract and classify fields from client packs and contracts.

03

Workflow Automation

Repetitive admin replaced with reliable AI workflows.

04

Internal AI Assistants

Custom tools — fast, controlled, with full audit trails.

05

Website Design & AI

Redesign your site with AI widgets — intake, uploads, smart FAQs.

06

Branded to Your Firm

Every tool is white-labelled in your logo, palette and voice.

HOW IT WORKS

01

DIAGNOSE

Map the workflow

02

DESIGN

Pick smallest slice

03

BUILD

Ship in weeks

04

DEPLOY

Monitor & expand

Bring us the workflow your team hates most.

30-minute strategy call. No slides. We tell you if AI helps — or doesn't.

— THE TEAM

Operators, designers and engineers — not consultants.

A small, senior team. We've shipped products at scale, run operations, and built AI tools that get used on Monday morning.

ANDREW McCracken

PRODUCT & DESIGN

Senior product designer, entrepreneur and exited founder with over 10 years helping businesses design and launch intuitive digital products that solve complex user and operational challenges. Background in Interactive Multimedia Design across startups, consultancy and enterprise — focused on practical, scalable solutions powered by strong UX thinking, product strategy and emerging technology.

MATT BLAIR

ENGINEERING & AI

Software architect with over 16 years across industry, consultancy and now leading an independent software studio. Built and led platforms used by millions of customers worldwide. Having researched, written about and built AI products for several years, he's well positioned to help businesses adopt AI in practical, durable ways.

STEPHEN DAVIDSON

BUSINESS & OPERATIONS

Business management specialist with nearly 20 years overseeing high-profile businesses across the UK & Ireland. Stephen brings deep operational experience and a commercial lens — tailoring our AI solutions to maximise success for the firms we partner with.
